

WHERE QUALITY COUNTS

Armour Steel Fabricators is a locally owned business that was originally incorporated in 1979. On October 31st, 2001 it was purchased by the current owner. Shortly thereafter, we launched our company slogan, "Where Quality Counts".

Armour Steel Fabricators has built a solid reputation stemming from our knowledge and expertise in custom steel fabrication. We are certified by the Canadian Welding Bureau to CSA Standard W47.1/59.1 and W47.2/59.2. Armour Steel Fabricators is ISO 9001:2015 certified and has been for a number of years, this shows our dedication to providing quality products. Armour Steel Fabricators believes in providing a safe work environment. We recently received our COR (Certificate of Recognition) for our health and safety program and we have also received a Certificate of Achievement from WCB.

We believe the success of our company is directly related to our team of management, welders and support staff and their commitment to provide our customers with quality services and a quality product.

Please see our list of services to see what we offer and how we can help you!

We would appreciate the opportunity to quote any work you may have upcoming. We would be happy to travel to your site to discuss our abilities and experience in preparation for any projects you may have or for any work that you yourself may be bidding. We would also be pleased to arrange a tour of our site at your convenience.

MANAGEMENT

CEO/President: Judy Vanderleest
Operations Manager: Henry Vanderleest
General Manager: Kevin Lorenz
Accounts Manager: Glenn Littlemore
Estimator & Detailer: Josh Kessler/Sean Moiruik
Shop Foreman: Scott Viczko
Safety: Rihana Posehn
HR Department: Chelsey Criton

FABRICATING
THE FUTURE

EQUIPMENT

120 Ton Ironworker

Plate Rolls: 3/8" Thick x 96" Wide

Plate Shear: 3/8" Thick x 120" Wide

Press Brake

- 250 Ton x 10' Wide
- 400 Ton x 14' Wide

Angle and I-Beam Rolls: L 4" x 4" x 0.5"

Radial Drill: 3"

CNC Plasma/Torch Table

CNC Band Saw

Welding Machines

- MIG
- Stick
- TIG
- Aluminum MIG

Submerged Arc Welding: 60" dia to 200" long

Material Handling Equipment

- 4 - Overhead Cranes capacity of 5 tonnes
- Forklifts up to 8,000 lbs.
- 11 - Service Trucks
- 2 - 1 Ton Flat Deck for pick-up and delivery
- 1 - 5 Ton Flat Deck for pick-up and delivery

SERVICES

Certification

Armour Steel Fabricators is certified by the Canadian Welding Bureau to CSA Standards:

- W47.1/59.1 - Welded Steel Construction
- W47.2/59.2 - Welded Aluminum Construction

Welding

Our welding department can provide many welding processes that include general fabrication and structural fabrication from steel, stainless steel, aluminum and brass products. We also do wear overlays and submerged arc overlays such as aluminum bronze, manganese bronze, stellite, monels, carbides and various stainless steels. Pipe Cutting and weld preparation on request.

Structural Fabrications in Steel, Aluminum and Stainless Steel

- Columns, Beams, Bracing, Girts, Sag Rods
- Industrial Equipment Support Steel
- Conveyors and Conveyor Supports
- Pipe Racks
- Stairs and Handrails
- Ladders
- Concrete Slip Forms
- Anchor Bolts

Stress Relief

Our Metal-Lax vibratory stress relief system is a sub-harmonic stress relief and weld conditioning system.

Platwork

- Bins and Tanks
- Hoppers
- Chutes
- Stacks
- Belt and Chain Guards

Metal Cutting

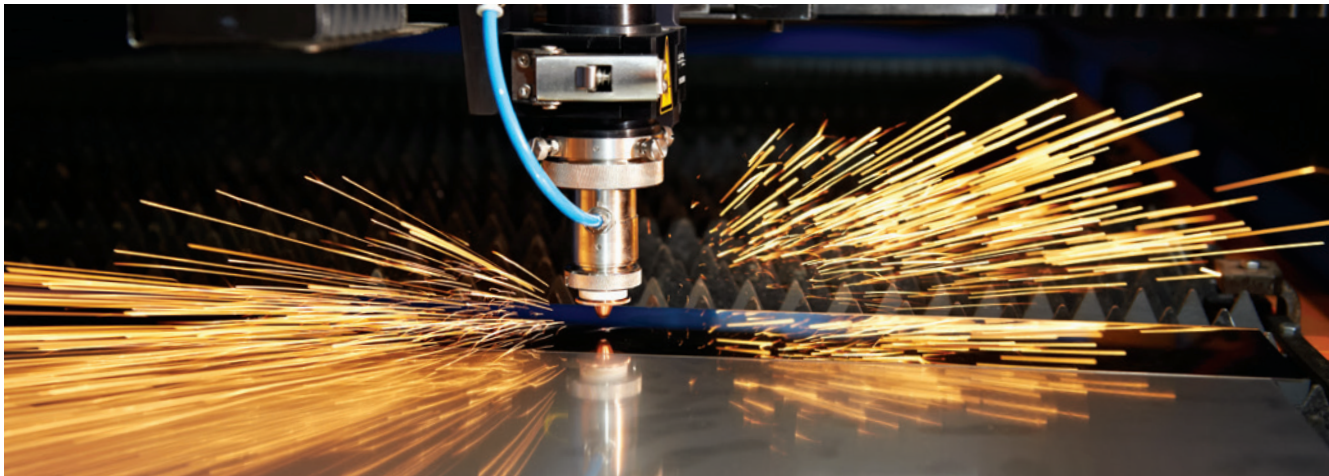

- CNC Plasma Cutting Table
- Torch Cutting
- CNC Saw Cutting
- Metal Shear

Installation

- Structural Steel Install
- Pipe Handling Equipment
- Miscellaneous Steel Fabrications

Computer Aided Design

- AutoCAD 2D or 3D
- Mastercam
- Advance Steel
- Inventor 3D

Complementing our welding shop facility, Armour Steel Fabricators is partnered with Ross Machine Shop in Regina, thus providing a full range of millwrighting and machining capabilities. For more details, visit our Ross Machine Shop website: www.rossmachineshop.com
